Violence Transformed and Lesley University present our 2018 exhibit and symposium, ***“Women Against Violence: Resistance and Resilience”***, their 5<sup>th</sup> annual ***Future of the Past*** event. The exhibit demonstrates the power of artists as activists when they address issues of violence, inequality or harassment against women. We use “women” in broad and inclusive terms to include non-binary, trans, gender queer, femmes, etc. The event and exhibit will feature different voices to uncover the multiple, complex, conflicting, and inspiring discourses surrounding this topic.
